## CONDITION OF THE MARKETS

THEO. P. HAUGHEY. Pres't. E. E. REXFORD, Cash.

Wheat Opens Easy, Fluctuates Widely, and Closes at a Decided Advance.

Corn Rules Quiet on Light Trading and Small Margins-Oats Active and Higher-Provisions Stronger and a Trifle Higher.

MONEY, BONDS AND STOCKS.

Market Generally Higher Throughout the Day but the Advance Is Lost at the Close. NEW YORK, Dec. 4.-Money on call was easy at 21 @3 per cent, the last loan being made at 3, closing offered at 2.

Prime mercantile paper, 42 @61 per cent. Sterling exchange was quiet but steady at \$4.841 for sixty-day bills and \$4.881 for demand. The total sales of stocks to-day were 285,220 shares, including the following: Delaware, Lack-

awanna & Western, 12,900; Lake Shore, 18,-459; Louisville & Nashville, 13,886; Missouri Paeific, 3,573; Northwestern, 14,665; Oregon Transcontinental, 10,020; Reading, 34,100; Richmond & West Point, 6,185; St. Paul, 30,980; Union Pa-

cific, 24,935; Western Union, 17,740. The stock market was generally higher throughout the day than last evening, but Missouri Pacific and Atchison were very weak in spots, and checked the natural disposition of the market to advance, and to-night the list is irregularly changed, with but few important movements for the day. The inclination to sell stocks upon the uncertainty of the situation in the Southwest was less pronounced this morning, and a desire to cover was shown, which, coupled with the very marked buying for foreign account, gave the general list a firm to strong tone, which carried it above last evening's figpres and kept it there for the remainder of the day. The weak spots, how-ever, were Missouri Pacific and Atchison, and they both broke badly at the opening, and again toward the close. The weakness was accompanied by rumors that the coming dividend would be passed, and as no statement could be obtained in regard to the matter, the disposition evidently being to dodge the question, and thus render the stock a fair mark for the attacks of the "bears" all through the day. The impression made upon the other leading shares by the movements of the two weak stocks, however, was very slight, and few stocks fluctuated over a range of more than 1 per cent. Northern Pacific, Union Pacific and Oregon Transcontinental were favorably affected by the news of the day, but Lake Shore was weaker than for some days past, considerable pressure being brought against that stock, but its final change is insignificant. The grangers as a class were quite strong, but the doubts in regard to the future action of the Erie on the question of the differential had the effect of rather restricting operations in the stocks of the trunk lines, and they were comparatively sluggish all day long. Manhattan was an exception to the general stocks and scored a handsome advance late in the day. The closing was strong, but under the weakness displayed by Missouri Pacific it yielded immediately, and the first prices of a majority of the list were lower, and further losses were sustained in the dealings of the first few minutes. The reaction was sharp, however, and prices in the general list were carried up above the opening figures, and maintained there during most of the day, the fluctuations being smaller, and without particular significance. There was a decline and rally after noon, but it was not until the last hour that any marked tendency was shown, when the entire list again yielded, and the market closed rather weak at fractional changes from last evening's prices. Missouri Pacific lost 34, and Atchison 24, while Manbattan rose 12. Railroad bonds were dull and uninteresting.

the sales reaching only \$913,000, while the market seemed to be under the influence of Missouri Pacific, with a heavy to weak tone throughout most of the day. The important declines include Obio, Indiana & Western fives, 24, at 742; Milwaukee, Lake Shore & Western convertibles, 2. at 904: Kansas & Texas fives, 2, at 564; Peoria, Decatur & Evansville seconds, 64, at 65; Richmond & Danville debentures ex. coupon, 2, at 93; South Carolina seconds, 21, at 75, and South Carolina incomes, 21, at 15. There were but few advances.

Government bonds were dull and steady.

CHICAGO, Dec. 4.—The course of wheat today gave operators another surprise. The market opened easy, but soon developed strength, and an advance of 21c was established, after which a reaction of 2c followed. Prices then became stronger again, and closed about 2e higher than yesterday. Trading was fair. All domestic markets ruled stronger. There was some "bull" news on the floor, and this, with good buying, credited to a supposed "bull" com-bination, were reasons assigned for the upturn in prices. Operators perhaps found themselves short on the upturn and were anxious to cover. Perhaps the principal news was the report that three cargoes of wheat were loading at San Francisco for export to Australia, supposed to be due to the partial failure of the crop by drought. This was denied later. Talk of light receipts in the north was again revived, and the arrivals at Duluth and Minneapolis showed a falling off, but operators have become accustomed to hearing the prediction of small receipts in the Northwest, and with some this piece of news fell flat. Corn ruled quiet most of the session, trading being of a light volume and fluctuations limited to ic range. The feeling, with the exception of a short time after the opening, was comparatively firm. There was little outside news of importance received, and the market was governed to a considerable degree by local influences, the chief of which was the operations of a prominent local trader who was credited with buying December and May, and selling January. Opening sales were at slight advances over the closing prices of yesterday, after which the market sold off } per cent, alled to, ruled steady and closed toto higher than yesterday. In oats the trading was fairly active within a moderate range. The opening was easy, at to decline. After a further break of ic, buyers took hold more freely, and although offerings werel liberal they were all absorbed, and prices advantage if a ic.

The close was firm at about outside figures. Mess pork opened stronger and about 10c higher. A further improvement of 121 @ 150 was gained, when there was more inclination to sell, and prices gradually receded 20 @ 22 c. Toward the close the market was steady, and prices rallied 10@12½c. Transfers of contracts from January to May were made at 42½@45c difference. In lard prices ruled .071 2.10c higher early, but settled back again, and finally closed at outside figures. Transfers of contracts from January to May were made at .15@.174c difference. In short ribs prices ruled .05 .0.10c higher, and closed very firm at outside figures.

Exciting Day in the Coffee Trade. NEW YORK, Dec. 4.—This was the most exciting day for years on the Coffee Exchange, and the amount of transactions was unprecedented. Higher quotations in Hamburg and Havre, coupled with the Brazilian advices that the new crop would be 25 per cent. below the average, while the stock of the world is a million bags below last year's total, and consumption is largely increasing, caused a sharp rise of 70 points, and the market closed I to 11 cents per pound higher than the opening in all options. Henry Hentz and J. A. Drakely were the brokers who did most of the buying. It could not be learned who their principals were, but it was supposed

that they acted for the Arbuckles. TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Baltimore, Cincinnati and Other Points.

MINNEAPOLIS, Dec. 4.-The sample wheatholders were holding for higher prices at the start, and with a 2c rise in speculative markets, holders put up prices of each 1 cent to start with. Buyers were not eager, however, and the advance asked only served to frighten them away. Some of them ventured to examine the offerings later, and a few lots were taken, but the same act of removing the surplus was gone through with by sellers at the close that has made life a burden to many of them for some days past. Some sales were made at yesterday's figures, and some sellers claimed they were offering at unchanged prices without getting bids. INDIANAPOLIS MARKETS.

Trade Improving, Collections Easy, and Healthy Tone Pervading Buisness.

INDIANAPOLIS, Dec. 4. Trade is good, was the common remark in the wholesale market to-day, and collections are generally prompt and free from friction. In prices, fluctuations were few. Grocers were quite busy, and both sugars and coffees carry a strong tone. The New York Commercial Bulletin, of Monday, says of coffees: "A genuine pronounced best' has not been found upon the market for Brazils for many days, and if any operators entertain radical opinions of the stripe indicated by the trade term quoted, they conceal their identity with much success at present. There may be noted more or less solemn shakings of the head in some quarters over every addition to cost, with usual suggestions that prices are getting overstrained, but the market has developed much elasticity, and there is an evident inclination to crowd it to the fullest limit. Even allowing for the usual arrogant tone that always accompanies a successful 'bull' movement, operators for a rise have certainly thus far justified to the fullest extent their assumption of confidence in ability to put up the price of coffee, and partly verified the claim of securing custom from consumers, though the distributive movement for a few days has given evidence of some hest-

tation over the enhanced plane of valuation." The same paper speaks of sugars as being firm and advancing in their tendency. In the dry goods market it was noticeable that a number of buyers were in and mail orders were reported large. With the fancy goods and notion men great activity is noticeable as the holidays draw near. Confectioners are doing a targe business, shipping tons of candies daily. A strong effort is being made to "bull" the market on canned goods, but it seems to be uphill work, as it is quite evident that the quantity put up in the past season is ample to supply the market. It should be borne in mind that all over the country the fruit crop was large, and many families, who are usually large buyers, put up large quantities. The produce markets were moderately active. Poultry moves sluggishly, but with the drop in prices receipts have fallen off somewhat. Packers are placing a large per cent of the arrivals, after being killed, in the cold storage houses, awaiting a better market East. Eggs are scarce and firm in price. Butter is more plenty and prices are still unchanged. Apples, potatoes, cabbage, onions and celery in the last day or two have been selling slow. An early improvement is looked for in the demand but not in the prices.

The local market to-day presented no points of interest. Not a car-load of wheat arrived, and the market ruled quiet. We quote: No. 2 red wheat dull at \$1 @1.02; No. 3 red salable at 94 @ 97c; rejected, 75 285c for poor to good samples, and choice at 85 @ 90c.

Corn-Receipts posted to day, 19 cars; yesterday, 45 cars. An important discovery (if his experience is confirmed next season) has been made by a gardener, who claims that the elder is not attacked by any kind of insect, and that when he covered the cabbages, squash, cucumbers and other plants with leaves of the common elder bush the insects kept away. He reports that a neighbor kept the curculio from plum trees by placing branches of elder through them. If this remedy proves successful with others it will save a large loss annually.
